BIOL 206 (004-106): Foundations in Biology: Ecology & Evolution LAB

COORDINATOR:  Maria Stanko, PhD  
OFFICE:  434 Colton Hall  
EMAIL:  mstanko@njit.edu

INSTRUCTOR:  TBA  
COURSE WEBSITE:  http://moodle.njit.edu/
COURSE SCHEDULE:  Sections 004-106  
Colton Biology Lab: 120L

DESCRIPTION:
This course is the laboratory component of Foundations in Biology: Ecology and Evolution. You MUST be registered for the lectures (Biology 205) to take the lab. The labs are designed to complement and elaborate upon concepts learned in the lecture, to give you hands-on experience making observations and gathering data, and to introduce you to common procedures and analyses used in the study of ecology and evolution.

PREREQUISITES:
General Biology I & II (R120:101, R120:102) or Concepts in Biology BIOL 200, with grade of C or better.

LAB PREPARATION:
For each lab, a lab handout and a lab worksheet will be posted on the course website by Friday morning of the previous week. Please read through both of these files thoroughly before coming to lab, and be sure to bring a print-out of BOTH files to each lab. Note that for some labs, you will need to bring handouts and worksheets for two labs. Please obtain a 3-ring binder to keep your lab handouts and worksheets organized into a lab notebook.

COURSE WEB PAGE:
We will use Moodle in this course. To use Moodle students must have an NJIT UCID. If you are matriculated at NJIT you should already have a UCID. If you are a Rutgers student you can request one here https://newacct.njit.edu/~accts/cgi-bin/new or call the NJIT helpdesk for assistance (973-596-2900).

GRADING:
Your grade for lab will be determined based on quizzes, worksheet assignments, and one written lab report:

- **Quizzes:** You will begin each lab with a quiz. Students arriving late to lab will not be permitted to take the quiz. Make sure you read the lab handout before coming to lab so you’re prepared! The quizzes will focus on the current week’s lab and will also include some review from previous weeks.

- **Assignments:** Each week, complete the worksheet that accompanies your lab handout. Some of it will be completed during the lab; often, there are analyses or interpretive questions that you’ll need to complete on your own time. Worksheets for each lab are due IN LAB the week after the lab is completed (see lab schedule). Please note that while you usually work in groups during the lab and will share data and discuss results with your group, your worksheet and other parts of the assignment must be your own work.
Lab Report: You will design a plant experiment and report the results in a full lab report in the style of a scientific publication. Failure to turn in either section of the draft will result in a loss of 30 points.

Attendance, Make-Up, and Lateness Policy: Attendance at every lab is **required** and necessary to earn a good grade in lab. You will not be permitted to turn in a worksheet for a lab you did not attend. If you must miss lab for a valid reason, you may attend another lab section during the SAME week only, with documentation (doctor’s or dean’s note) of your absence. You MUST let your TA know if you want to make-up a missed lab. Late assignments will be deducted 10% of the points available for each 24 hours after the assignment was due.

Academic Dishonesty: The course has a zero tolerance policy for academic dishonesty, including plagiarism and cheating. Instances of dishonesty will be punished by a zero on the assignment and consultation with the office of the Dean of Students to determine if further action is required. If you have any questions about what constitutes plagiarism or cheating, please ask your TA or refer to the academic integrity code [NJIT Academic Integrity Code](#).

Lab Safety:

General safety precautions:

- No eating or drinking in the lab.
- Wear closed-toed shoes to lab.
- Follow the directions for lab procedures and ask your TA if you’re unsure about how to operate any equipment.
- Keep an organized workspace and label all materials.
- Your lab handouts and your TA will alert you to safety concerns specific to a particular lab.

**NOTE:** You should notify your TA immediately of any injuries, spills, or broken equipment.
