INSTRUCTOR: Dr. Lisa O’Bryan

OFFICE: Central King Building 428A

OFFICE HOURS: By Appointment Only

COURSE SCHEDULE: R: 1:00pm–5:25pm [CKB 326]

COURSE WEBSITE: https://classroom.google.com/u/0/c/MTYyOTY1MTM3NFpa

COURSE DESCRIPTION: This is a laboratory and field based course focused on designing and conducting experiments in animal behavior. Students will gain experience with experimental design, and all labs will be inquiry based with students designing experiments to test hypotheses. Topics in animal behavior that will be explored include: foraging, predator avoidance, territoriality, and mate choice.

COURSE OUTCOMES: By the end of the course students will be able to:

1) describe and analyze animal behavior using principles of evolutionary biology
2) use observation and experiments to investigate animal behavior
3) use quantitative methods to describe and analyze data
4) locate and evaluate scientific literature
5) communicate science in both written and oral formats
6) work in groups to design, conduct and interpret scientific studies

PREREQUISITES: Foundations of Biology: Ecology and Evolution (BIOL 205/206)

REQUIRED MATERIALS: Research notebook (3-ring binder is fine).

FIELD TRIPS: For several classes we will be traveling to sites near NJIT to conduct our experiments. For these trips you must dress appropriately. For all trips you should wear closed-toe shoes. I would suggest either wearing sneakers or hiking books. I would also suggest that you wear layers, perhaps a t-shirt and a jacket. Lastly, please make sure that you wear clothes that can get dirty.

Class Documents and announcements will be posted on Google Classrooms:

Grading Policy:
Grades will be determined by performance on quizzes, lab assignments, a student presentation, a project proposal, a formal lab report, and participation in paper discussions. As this course is Honors/Writing Intensive there will be two writing assignments that are submitted twice, once as an ungraded draft, and then as a final version. These two assignments are the formal lab report and the project proposal. Deadlines for both draft and final versions of these writing assignments are listed on the course schedule.

Make-up Quizzes and Make-up/Late Materials:
Quizzes and assignments in the course can be made up with appropriate documentation (i.e. a doctor’s note). If you miss a quiz or assignment, please notify Dr. O’Bryan as soon as possible. Late materials will be accepted, however you will lose 5% points for each day that the assignment is late.

Academic Integrity:
The university’s academic integrity policy can be found here: [http://www.njit.edu/academics/pdf/academic-integrity-code.pdf](http://www.njit.edu/academics/pdf/academic-integrity-code.pdf). This code will be enforced in this course. If you have any questions about this policy, please come and talk to me about it.
